**WE DESIGN
FOR YOU**

Company Profile

MORE International Engineering Consulting, is a leading residential and commercial design firm based in Abu Dhabi. MORE International was established to respond to clients' needs and all-building related services. The firm set out small and as time went by, it started to gain trust and experience in the market and continued to grow.

Today MORE International is a group of professional engineers and architects offering a full range of designs and construction services including architecture, planning, interior design, landscape, environmental studies, energy management, construction and Project management.

MORE International has a strong commitment to client satisfaction. By working closely with the clients and stakeholders, we ensure that their projects and dreams reserve the attention they deserve. We appreciate our clients and customers, so we go that extra mile to look after them.

FOUNDER AND EXECUTIVE MANAGER MESSAGE

“After years of experience working with gulf customers, we noticed that their needs are changing faster than the construction market. They no longer need just a place to work or live with, but they are looking to play and enjoy with. At MORE International, we have founded our “new baby” to adopt the new theory of customer needs; as people now need a place to live, work, and enjoy the advanced technology with an economic price. Also, I had the opportunity to implement the changeable customer needs in many projects with my previous projects such as shown here in the profile such as finishes and furniture, air conditioning, and acoustical partition construction. In addition, having a long term commitment to the health and wellbeing of the building occupants i.e. air quality, energy efficiency, water consumption reduction, ecological materials. We are committed to the integration of interior design and architecture, with a staff that is evenly balanced in training and experience.”

FADI SARRAJ

MISSION

To Our Clients

We will offer excellent quality **design** services to our clients by utilizing the best available technology and well trained **designers** from project conceptualization to project completion and occupancy . Our service will surpass their expectations and will set the benchmark for our competitors.

To Our Eemployees

We support the innovation and creativity of our staff. We believe that their success as individuals is the foundation of our success as a company. Therefore we will uphold their welfare, nurture their talents, encourage their progress and preserve their health and well-being.

To the Environment

We will preserve the environment and our natural resources. We will use our knowledge and skills to reduce pollution, eliminate hazardous practices and decrease wastage. We will utilize our resources wisely in hopes of a cleaner and greener future.

To The Community

We believe that our success should benefit the community and that our prosperity should aid the local economy. We will contribute to the development of our location and support its trade, integrate our business with its dustries, and support its initiatives.

DELIVER SOPHISTICATED AND SUCCESSFUL PROJECTS

WHY MORE INTERNATIONAL?

MORE INTL. has a successful track record working with successful local and international organisations that demand consistency in quality, service and value for money, regardless of where their project is located.

Our clients include owners, developers and occupiers in all sectors. From the onset we strive to fully understand their objectives so that we provide the most effective route to success. We take a collaborative approach with our clients, stakeholders and trade contractors, ensuring that we are working as a team at all times. Open communication and close collaboration on our projects encourages shared innovation. As a result we have succeeded in saving many clients both time and money.

In line with **MORE INTL.**'s vision and values the company seeks out local suppliers that share our commitment to all stakeholders, the community and the environment and who proactively seek new technical and commercial solutions to ensure continual improvement.

**YOU IMAGINE
WE DELIVER**

Collaborative team

We develop everyone in our company to do their jobs with confidence, from interns' right through to our most experienced people.

Our results come through a great team effort with each other, our supply chain and clients. We are as flexible and as careful as we possibly can be to minimise any disturbance to you.

Right first time

We know that your demands will be high. We understand we are only as good as our last job. So we start afresh every day – working harder than ever to deliver the highest standards of quality, reliability, and value that you expect. We work to consistent standards and procedures – checking and double checking to get everything right the first time.

Knowledgeable

At **MORE INTL.** we have an in depth knowledge of the industrial, commercial and fit out sectors. We are well briefed in design processes, materials and current best practices. We keep abreast of ever changing legislation including Building Regulations, Environmental Legislation and Regional Regulations.

Transparent

We always aim to start with the clearest possible understanding of what you need and want to achieve. Then we keep things as clear and open as we can, at every stage of the process.

We react quickly to any problems, sort them out fast and resolve any issues amicably.

Flexible

We are big enough to deliver on substantial projects while our management structure and philosophy enables us to remain very responsive to our client's requirements and needs. We recognise that specifications can change or unforeseen circumstances may result in necessary changes. We respond to situations like this effectively and do all we can to accommodate any client driven variations
